# 7 COOPERATIVE PRINCIPLES

---

Cooperatives around the world operate according to the same set of core principles and values. These principles are a key reason why Butler Rural Electric Cooperative operates differently from other electric utilities, putting the needs of our members first.

## **Voluntary and Open Membership**

Membership in a cooperative is open to anyone who can reasonably use its services and are willing to accept the responsibilities of membership, regardless of race, religion, gender, or economic circumstances.

## **Democratic Member Control**

Cooperatives are democratic organizations controlled by their members, who actively participate in setting policies and making decisions. Trustees are elected from the membership and are accountable to the members. Each member has one vote.

## **Members' Economic Participation**

Members contribute equitably to the capital of their cooperative. Cooperatives provide services at cost and are not-for-profit organizations. Members benefit in proportion to their transactions with the cooperative in the form of capital credits.

## **Autonomy and Independence**

Cooperatives are autonomous, self-help organizations controlled by their members. If they enter into agreements with other organizations, they do so on terms that ensure democratic control as well as their unique identity.

## **Education, Training, and Information**

Education and training for members, trustees, and employees help them effectively contribute to the development of their cooperatives. Communication about the nature and benefits of cooperatives, particularly with the general public and opinion leaders, helps boost cooperative understanding.

## **Cooperation Among Cooperatives**

By working together through local, national, regional, and international structures, cooperatives improve services, bolster local economies, and deal more effectively with social and community needs.

## **Concern for Community**

Cooperatives work for the sustainable development of their communities through policies supported by the membership.

# Welcome to

## Butler Rural Electric Cooperative

Butler Rural Electric Cooperative is a member-owned, not-for-profit electric cooperative. We provide electricity to more than 11,500 members in portions of Butler, Hamilton, Preble, and Montgomery counties and employ almost 50 people. Our office is located in the heart of our service territory in Oxford. Butler Rural Electric Cooperative's service territory is divided into nine districts, which are shown on the map below.

### OUR MISSION

To be a dynamic, progressive organization guided by cooperative principles and to provide energy and other value-added services to members. The cooperative will participate in its community, providing leadership and support to improve the quality of life for all of its citizens.

# Meet your **Board of Trustees**

Butler Rural Electric Cooperative is owned by the members we serve and democratically governed by those same members. The board of trustees are cooperative members who manage the business and affairs of the cooperative. Trustees meet each month to make decisions concerning the cooperative's best interest, set policies, and approve budgets. Board members are active in their communities and attend many of the cooperative's events.

Cooperative members elect three trustees each year to serve a three-year term. Members vote for trustees before the annual meeting. Members can vote online, through SmartHub, or by mail.

Board members are nominated by district and are elected at-large. The board of trustees make decisions that affect the entire membership and represent the interests of all members.

Board members want to hear from you. Feel free to give them feedback or ask them questions. They are your voice for the cooperative.

# Understanding your

## ELECTRIC BILL

Your electric bills are calculated around the 5<sup>th</sup> of the month and are usually due on the 20<sup>th</sup> of every month. If the 20<sup>th</sup> falls on a weekend or holiday, the due date is moved to the next business day. The bill reflects electric use and charges from the first to the last day of the prior month. Your payment due date is detailed on each bill.

- 1 This section displays your account number, service address, service period, and the date of the bill. The service location tells you where electricity was delivered. You will also find your meter number, meter readings, total kilowatt-hours used, and the total amount due.
- 2 This section shows your prior balance and payment, plus charges, credits, and your total amount due. It also displays any additional charges, such as security light fees.
- 3 This is a 12 month record of your power use in kilowatt-hours to help identify trends in your monthly energy use.
- 4 This chart compares the energy profile of your current bill to your previous bill, as well as the same month from the prior year. It features days of service, total kilowatt-hours used, your average daily use, and cost per day. You will also find high and low temperatures for the corresponding months so you can see the influence of outdoor temperatures on your electric use.
- 5 The message center alerts you to important information about your electric service or items that are unique to your account, such as disconnect notices.
- 6 This shows your account number and the total amount due. You can note your payment enclosed and return the bill stub to Butler Rural Electric Cooperative in the envelope with your payment.

OEC is located in Columbus, Ohio.

### **Buckeye Power, Inc.**

It is also diversifying its generation mix by acquiring additional capacity from both traditional and alternative energy sources. In addition to providing Ohio's cooperatives with power, Buckeye Power also provides marketing programs to educate members and help them save energy and money. Buckeye Power's office is located in Columbus, Ohio.

# OUR RATES

---

Your bill is based on three charges – the Distribution Base Charge, the Distribution Energy Charge, and the Generation and Transmission Charge.

The **Distribution Base Charge** covers upkeep of our electric system, such as lines, poles, meters, and substations. It covers everything it takes to bring electricity to your home and is influenced by the operating costs of Butler Rural Electric Cooperative.

The **Distribution Energy Charge** is influenced by the number of members the cooperative has per mile of line. The cooperative has an average of ten members per mile of line, which results in slightly higher operating costs for the cooperative. This is significantly less than larger investor–owned utilities who have an average of 38 customers per mile of line. Even though we have less members per mile of line, the cooperative has competitive rates and constantly strives to provide all members with safe and reliable electric service.

The **Generation and Transmission Charge** is the cost of coal, environmental enhancements at the generation facilities, fuel for trains, trucks, and barges to bring the coal to the plant, and sending power over transmission lines to our distribution system. It's the cost of power from Buckeye Power, our generation and transmission cooperative.

Our members own the cooperative, and we are here to serve you.

## BENEFITS OF BEING A

Their commitment has resulted in decisions that have encompassed a broad spectrum of grant winners, from improving miles of horse-riding trails in Hamilton County to funding equipment to help a young child with developmental disabilities learn to walk.

Since Community Connection was founded in 1994, over \$1.5 million in grants have been awarded to local organizations.

# What are

## CAPITAL CREDITS?

One of the many unique features of an electric cooperative is that after operating expenses have been paid, margins are returned to members in the form of capital credits.

Below, the capital credits process is explained step-by-step:

- » Butler Rural Electric Cooperative is a not-for-profit organization owned by our members. The money to cover day-to-day operating costs of the cooperative comes directly from members paying their monthly electric bills.
- » At the end of the year, Butler Rural Electric Cooperative subtracts operating expenses from the amount of money collected and the remaining balance is called the margins.
- » The margins left over at the end of the year are allocated, or assigned, to your capital credits account based on individual patronage, or the amount of money you pay for your electric bill each year.
- » Your capital credits account, similar to a bank account, is the accumulation of margins that have been allocated to you each year based on your patronage. At the end of each year, the cooperative deposits your allocated margins into your capital credits account.
- » From time-to-time, the board of trustees retires capital credits based on the financial stability of the cooperative. If the board chooses to retire capital credits, the cooperative will withdraw the margins from your capital credits account and send them to you in the form of a check, unless you choose to apply the amount to your bill.

## LOAD MANAGEMENT

During peak demand times, it costs more for Buckeye Power, our generation and transmission cooperative, to generate the large amount of electricity being consumed. To meet the demand, Buckeye's large coal-fired baseload power plants are running at full capacity. Additional natural gas peaking plants, which cost more to run, are used to help supply enough electricity during this time.

Electricity cost is highest when demand is greatest. The maximum, or "peak," amount of electricity used determines Butler Rural Electric Cooperative's future cost of power. When the peak goes up, so does the cost.

The cooperative's load management program is an essential tool used to help control power costs. Reducing the demand for electricity created by electric water heaters and central air-conditioning systems helps the cooperative decrease the use of electricity during peak times. Load management programs such as water heater radio-controlled switches (RCS) and Cool Returns air conditioner switches were created to help the cooperative decrease the use of electricity when many people are using large amounts of electricity at the same time.

## PEAK ALERTS

A peak alert is a way to keep electric use down, which in turn keeps members' rates lower. Peak alerts are issued when the demand for electricity is at an all-time high and rising toward a new peak. They typically occur on hot summer days from about 2 to 7 p.m. We ask members to reduce their energy consumption during this time in order to help avoid reaching a new peak.

If you have a radio-controlled switch on your water heater or a Cool Returns switch on your central air-conditioning system, it will be activated during summer peak alerts. Over 5,600 members currently have switches on their water heaters and air conditioners.

The cooperative notifies members about peak alerts with an e-mail. We also post peak alert notices on SmartHub, our Facebook page, and on our website, [butlerrural.coop](http://butlerrural.coop).

# Radio-Controlled Switches and Cool Returns

---

Members who have an RCS switch on their water heater receive a \$4 monthly bill credit. When the switch is activated during a peak alert, the water heater elements will be turned off to help decrease electric demand.

Members who have a Cool Returns switch installed on their air-conditioning system receive a one-time \$100 bill credit and a \$2 monthly bill credit. When the switch is activated during a peak alert, the system will cycle on and off for brief periods of time.

If you would like to have an RCS switch installed on your electric water heater or a Cool Returns switch installed on your air conditioner, please contact the cooperative by calling 513-867-4400 or 800-255-2732.

## Safety **FIRST**

Planning to dig on your property? Call Ohio Utilities Protection Service, or OUPS, first. Forty-eight hours before digging, call 800-362-2764, 811, or visit [oups.org](http://oups.org) and representatives from neighboring utilities will locate and mark their underground lines.

When a utility marks a location, it uses a colored flag and/or paint to identify the type of underground service. Here are the standard colors and the utilities they represent:

Red	Electrical
Yellow	Gas, oil, gaseous materials
Orange	Phone, cable
Blue	Potable water
Purple	Reclaimed water
Green	Sewers
Pink	Temporary survey markings
White	Proposed excavation

# Power outage

## INFORMATION

As much as we try to avoid them, power outages do occur. Storms, wind, trees, small animals, car accidents, and equipment failure can be the culprit. No matter the time or the day, the cooperative's linemen respond to outages immediately and restore power as quickly and as safely as possible.

If you are experiencing a power outage, please check your breaker to determine if the outage is a household issue. The main breaker is outside of your home, near your meter. If you have checked the breaker and it seems to be functioning properly, report your power outage.

## REPORTING AN OUTAGE

You can report an outage through SmartHub or by calling the cooperative at 513-867-4400 or 800-255-2732, twenty-four hours a day, seven days a week. Do not assume we know about your outage. You should always report it to the cooperative. Never report an outage to the cooperative through e-mail or social media.

## OUTAGE MAP

For the most up-to-date outage information, view our outage map at [butlerrural.coop](http://butlerrural.coop) and click on "Outage Map."

# Tree TRIMMING

Trees, shrubs and brush growing too close to power lines and equipment cause 15 percent of power interruptions. To cut back on potential tree-related problems, Butler Rural Electric Cooperative operates an aggressive tree trimming program. Our contractors look for foliage growing under lines, overhanging branches, leaning or other types of dangerous trees that could pull down a power line if they fall, and trees that could grow into lines. Right of way clearing is important because it can help avoid widespread outages during severe weather conditions. Clearing also gives our linemen safe access to repair problems.

It's a job that's never done – by the time crews finish trimming along our 1,084 miles of lines, vegetation has started to grow back at the starting point. Because of this, the cooperative trims on a four-year cycle. You will receive a postcard or e-mail to notify you before your trees are trimmed.

Let us know if you notice trees or branches that might pose a risk to power lines. Before planting trees in your yard, think about how tall they may grow and how wide their branches may spread. As a rule of thumb, 25 feet of ground-to-sky clearance should be available on each side of our utility poles to give power lines plenty of space. Choose tree varieties with care and plant with power lines in mind.

If you have a green transformer box in your yard, please remember that planting around it can be dangerous and could block our crews from accessing it. Plant landscaping at least 10 feet from the box. The transformer will be inspected on a routine basis, so keeping it clear of landscaping will be helpful.

## ASH TREES

Due to the damage caused by the emerald ash borer, most of the ash trees in our area are dead and could cause damage to our lines. In addition to trimming trees within our right of way, ash trees outside our right of way will be evaluated to determine if they are a threat to our system. If they pose a threat, we will cut them down for our members, but in order to hold down costs, it will be the members' responsibility to remove the debris.

A member shall make an application for service for every service location on the system and pay any application fee as may be established by the Board.

No membership in the Cooperative shall be transferrable.

*SECTION 2. Membership Certificates.*

Membership in the Cooperative may be evidenced by a membership certificate which shall be in such form and shall contain such provisions as shall be determined by the Board. Such certificate shall be signed either manually or by facsimile signature by the President and by the Secretary of the Cooperative and the corporate seal or a facsimile thereof shall be affixed to such certificate. Failure to issue a membership certificate or the loss or destruction thereof shall not affect the membership of any person listed as a member in the Cooperative's membership records.

### *SECTION 3. Joint Membership.*

Applications for joint membership shall not be accepted.

### *SECTION 4. Purchase of Electric Energy.*

Each member shall, as soon as electric energy shall be available, purchase from the Cooperative all electric energy used on the premises specified in the application for electric service, and shall pay therefore at rates which shall from time to time be fixed by the Cooperative in accordance with all applicable requirements of law. It is expressly understood that amounts paid for electric power and/or energy in excess of the cost of service are furnished by the patrons of the Cooperative, whether members or non-members, as capital and each patron shall be credited with the capital so furnished as provided in this Code of Regulations. Each patron shall pay all amounts owed to the Cooperative as and when the same shall become due and payable. Production or use of electric energy on such premises, regardless of the source thereof, by means of facilities which shall be interconnected with Cooperative facilities, shall be subject to appropriate regulations as shall be fixed from time to time by the Cooperative.

### *SECTION 5. Termination of Membership.*

- a. Any member may withdraw from membership upon compliance with such uniform terms and conditions as the Board may prescribe. The Board may, by the affirmative vote of not less than two-thirds of all the members of the Board, expel any member who fails to comply with any of the provisions of the Articles of Incorporation, this Code of Regulations, or rules, regulations or policies adopted by the Board, but only if such members shall have been given written notice by the Cooperative that such failure makes the member liable to expulsion and such failure shall have continued for at least ten days after such notice was given. Any expelled member may be reinstated by vote of the Board or by vote of the members at any annual or special meeting.
- b. Upon the withdrawal, death, cessation of existence, cessation of the Cooperative's electric service to, or expulsion of a member, the membership of such member shall thereupon terminate. The Board may adopt uniform rules governing the membership status of persons whose electric service is temporarily discontinued by the Cooperative.

Termination of membership in any manner shall not release a member or member's estate from any debts or obligations due the Cooperative.

- c. In case of withdrawal or termination of membership in any manner, the Cooperative shall repay to the member the amount of the membership fee paid, provided, however, that the Cooperative shall deduct from the amount of the membership fee the amount of any debts or obligations owed by the member to the Cooperative.

### *SECTION 6. Service to All Persons Within the Cooperative's Service Area.*

- a. The Cooperative shall extend electric service to all persons, whether members or non-members, within the Cooperative's service area who (i) desire such service and (ii) meet all requirements established by the Cooperative as a condition of such service. Conditions of service shall be set forth in the rules, regulations and policies of the Cooperative. All such rules, regulations and policies shall be just, reasonable and not discriminatory or preferential. No discrimination or preference shall be made between member and non-member patrons of the Cooperative with respect to rates or terms or conditions of service. As used in this Code of Regulations, the term "service area" shall mean geographic area established pursuant to the laws of the State of Ohio, or in the absence thereof as otherwise established by the Board of Trustees of the Cooperative.
- b. Nothing contained in this Code of Regulations, in the Cooperative's rules and regulations, policies, or otherwise, shall be construed to limit or prevent the Cooperative from selling electric power and/or energy or otherwise rendering electric service to non-members or to prohibit the Cooperative from entering into and performing franchises or other contracts with political subdivisions, bodies politic, or governmental agencies or instrumentalities, which franchises or contracts provide for the selling of electric power and/or energy or otherwise rendering electric service to any such subdivision, bodies agencies, instrumentalities or the citizens thereof.
- c. Nothing contained in this Code of Regulations, in the Cooperative's rules and regulations, policies, or otherwise, shall be construed to limit or prevent the Cooperative from entering into related electric energy or unrelated

business enterprises as the Board of Trustees shall consider to be appropriate from time-to-time.

*SECTION 7. Aid to Construction.*

In the event a member or non-member makes application for service beyond the limits normally furnished in accordance with the policies of the Cooperative, the member or non-member will be required to pay or guarantee the additional costs that are not the Cooperative's obligation. Nothing in the section shall be taken to mean that the Board of Trustees of the Cooperative cannot establish other classes of service. Such other classes are to be consistent with sound economics using the help of Rate Consultants or Regulatory Agencies to establish the terms and conditions of service.

A contract shall be drawn up and signed by both the member or non-member and the Cooperative stating the costs to be paid or guaranteed. If payment is required, any such payment must have been received in the office of the Cooperative before any work shall begin. No payment or guarantee shall give the member or non-member any property rights in the facilities constructed other than those held by virtue of Cooperative membership.

Guarantees shall take the form as determined by the Board of Trustees.

**ARTICLE II

The Board in its discretion may also require any other officer, agent or employee of the Cooperative to be bonded in such amount and with such surety as it shall determine.

*SECTION 15. Reports.*

The officers of the Cooperative shall submit at each annual meeting of the members, reports covering the business of the Cooperative for the previous fiscal year. Such reports shall set forth the condition of the Cooperative at the close of such fiscal year.

**ARTICLE VII**  
**NON-PROFIT OPERATION**

*SECTION 1. Interest or Dividends on Capital Prohibited.*

The Cooperative shall at all times be operated on a Cooperative non-profit basis for mutual benefit of its patrons. No interest or dividends shall be paid or payable by the Cooperative on any capital furnished by its patrons.

*SECTION 2. Patronage Capital in Connection with Furnishing Electric Energy.*

In the furnishing of electric energy the Cooperative's operations shall be so conducted that all patrons, members and non-members alike, will through their patronage furnish capital for the Cooperative. In order to induce patronage and to assure that the Cooperative will operate on a non-profit basis the Cooperative is obligated to account on a patronage basis to all its patrons, members and non-members alike, for all amounts received and receivable from the furnishing of electric energy in excess of operating costs and expenses properly chargeable against the furnishing of electric energy. All such amounts in excess of operating costs and expenses at the moment of receipt by the Cooperative are received with the understanding that they are furnished by the patrons, members and non-members alike, as capital. The Cooperative is obligated to pay by credits to a capital account for each patron all such amounts in excess of operating costs and expenses. The books and records of the Cooperative shall be set up and kept in such a manner that at the end of each calendar year the amount of capital, if any, so furnished by each patron is clearly reflected and credited in an appropriate record to the capital account of each patron, and the Cooperative shall within a reasonable time after the close of the calendar year notify each patron of the amount of capital so credited to their account. All such amounts credited to the capital account of any patron shall have the same status as though they had been paid to the patron in cash in pursuance of a legal obligation to do so and the patron had then furnished the Cooperative corresponding amounts for capital.

All other amounts received by the Cooperative from its operations in excess of costs and expenses shall, insofar as permitted by law, be (a) used to offset any losses incurred during the current or any prior calendar year and (b) to the

extent not needed for that purpose, allocated to its patrons on a patronage basis and any amount so allocated shall be included as part of the capital credited to the accounts of patrons, as herein provided.

In the event of dissolution or liquidation of the Cooperative, after all outstanding indebtedness of the Cooperative shall have been paid, outstanding capital credits shall be retired without priority on a prorata basis before any payments are made on account of property rights of members.

At any time before the Cooperative's dissolution, liquidation, or other cessation of existence, the Cooperative may generally retire and pay some or all capital credits allocated to the patrons or former patrons. The Cooperative may retire and pay capital credits only if the Board determines that the retirement and payment will not adversely impact the Cooperative's financial condition. Consistent with this code section, the retirement and payment of capital credits are entirely in the discretion of the Board and the Board shall determine the manner, method, and timing of retiring and paying capital credits. As reasonable and fair, the Cooperative may retire and pay capital credits to classes of similarly situated patrons under different manners, methods, and timing, provided the Cooperative retires and pays capital credits to similarly situated patrons under the same manner, method, and timing. After retiring capital credits allocated to a patron or former patron, the Cooperative may recoup, offset, or setoff any amount owed to the Cooperative by the patron or former patron, including any compounded interest and late payment fee, by reducing the amount of retired capital credits paid to the patron or former patron by the amount owed. Nothing herein shall be construed as limiting or impairing the Board, in the reasonable exercising of its discretion, its right to make additional retirements of capital credits before the time the Cooperative anticipates normally retiring and paying capital credits.

Capital credited to the account of each patron may be assignable on the books of the Cooperative pursuant to written instruction from the patron, unless the Board, acting under policies of general application, shall determine otherwise.

Notwithstanding any other provisions of this

Code of Regulations, the Board, at its discretion, may retire capital credited to any deceased patron, being a natural person, upon the written application of a representative of the patron's estate. Such retirements made in advance of the time for capital credit retirement set-forth above shall be in amounts and on a schedule deemed appropriate and on other terms and conditions established by the Board.

Notwithstanding any other provision of the Code of Regulations, if any patron fails to claim any cash retirement of capital credits or other payment from the Cooperative within four (4) years after payment of the same has been made available by notice or check mailed to the last known address, such failure shall be and constitutes an irrevocable assignment and gift by such patron of such capital credit or other payment to the Cooperative. Failure to claim any such payment within the meaning of this section shall include the failure by such patron to cash any check mailed by the Cooperative to the last known address furnished to the Cooperative. The assignment and gift provided for under this section shall become effective only upon the expiration of four (4) years from the date when such payment was made available to such patron without claim therefore and only after the further expiration of sixty (60) days following the giving of a reasonable notice as may be prescribed by the Board to such patron.

The patrons of the Cooperative, by dealing with the Cooperative, acknowledge that the terms and provisions of the Articles of Incorporation and Code of Regulations shall constitute and be a contract between the Cooperative and each patron, and both the Cooperative and the patrons are bound by such contract, as fully as though each patron had individually signed a separate instrument containing such terms and provisions.

#### **ARTICLE VIII DISPOSITION OF PROPERTY**

The Cooperative shall not sell, mortgage, lease or otherwise dispose of or encumber all or any substantial portion of its property or merge or consolidate with any other corporation unless sale, mortgage, lease, other disposition, encumbrance, merger or consolidation is authorized at a meeting of the members thereof by the affirmative vote of not less than two-thirds of all of the members of the Cooperative, and unless the notice of such proposed

sale, mortgage, lease, other disposition, encumbrance, merger or consolidation shall have been contained in the notice of the meeting; provided, however, that notwithstanding any other provision of this Article, the Board of the Cooperative, without authorization by the members' thereof, shall have full power and authority to authorize the execution and delivery of mortgages, deeds of trust, security agreements and financing statements, or otherwise pledging, encumbering, subjecting to a lien or security interest, any or all of the property, assets, rights, privileges, licenses, franchises and permits of the Cooperative, whether acquired or to be acquired, and wherever situated, as well as the revenues and income therefrom, all upon such terms and conditions as the Board shall determine, to secure any indebtedness of the Cooperative to the United States of America or any instrumentality or agency thereof or to any other bona fide lender, lending institution or investor; provided, further, however, that notwithstanding any other provision of this Article, the Board may upon the authorization of a majority of those members of the Cooperative present at a meeting of the members thereof, sell, lease, or otherwise dispose of all or a substantial portion of its property to, or merge or consolidate with another non-profit corporation which is or has been a member of Ohio Rural Electric Cooperatives, Inc.

Notwithstanding the foregoing provisions of this Article, nothing contained herein shall be deemed or construed to prohibit an exchange of electric plant facilities for electric plant facilities of another electric company when in the judgment of the Board such facilities are of approximately equal value, but in no event shall the value of the Cooperative's facilities so exchanged within any 12 month period exceed 10% of the total electric plant of the Cooperative.

#### **ARTICLE IX SEAL**

The corporate seal of the Cooperative shall have inscribed thereon the name of the Cooperative and the words "Corporate Seal of Ohio," but failure to affix such seal shall not affect the validity of any instrument duly executed on behalf of the Cooperative by its authorized officers.

**ARTICLE X  
FINANCIAL TRANSACTIONS**

*SECTION 1. Contracts.*

Except as otherwise provided in this Code of Regulations, the Board may authorize any officer or agent to enter into any contract or execute and deliver any instrument in the name and on behalf of the Cooperative, and such authority may be general or confined to specific instances.

*SECTION 2. Checks, Drafts, etc.*

All checks, drafts or other orders for the payment of money, and all notes, bonds or other evidences of indebtedness issued in the name of the Cooperative shall be signed by such officer or officers, agent or agents, employee or employees of the Cooperative and in such manner as shall from time-to-time be determined by resolution of the Board.

*SECTION 3. Deposits.*

All funds except petty cash of the Cooperative shall be deposited from time-to-time to the credit of the Cooperative in such bank, or banks as the Board may select.

*SECTION 4. Fiscal Year.*

The fiscal year of the Cooperative shall begin on the first day of October of each year and shall end on the thirtieth day of September of the next year.

**ARTICLE XI  
MISCELLANEOUS**

*SECTION 1. Waiver of Notice.*

Any member or Board member may waive in writing any notice of a meeting required to be given by this Code of Regulations. The attendance of a member or Board member at any meeting shall constitute a waiver of notice of such meeting by such member or Board member, except in case a member or Board member shall attend a meeting for the express purpose of objecting to the transaction of any business on the ground that the meeting has not been lawfully called or convened.

*SECTION 2. Policies, Rules and Regulations.*

The Board shall have power to make and adopt such policies, rules and regulations, not inconsistent with law, the Articles of Incorporation or this Code of Regulations, as it may deem advisable for the management, administration and regulation of the business and affairs of the Cooperative.

*SECTION 3. Accounting System and Reports.*

The Board shall cause to be established and maintained a complete accounting system which, among other things, and subject to applicable laws and rules and regulations of any regulatory body, shall substantially conform to such accounting system as may from time-to-time be designed by the Administrator of the Rural Utilities Service of the United States of America. The Board shall also after the close of each fiscal year cause to be made by a certified public accountant a full and complete audit of the accounts, books and financial condition of the Cooperative as of the end of such fiscal year. A report of such audit shall be submitted to the members at the next following annual meeting.

**ARTICLE XII  
AMENDMENTS**

This Code of Regulations may be altered, amended or repealed by the members at any regular or special meeting, provided the notice of such meeting shall have contained a copy of the proposed alteration, amendment or repeal.

**ARTICLE XIII  
INDEMNIFICATION OF BOARD MEMBERS AND OFFICERS**

*SECTION 1.*

Each Board member and officer now or hereafter serving the Cooperative, and each person who at the request of or on behalf of the Cooperative is now serving or hereafter serves as a trustee, director or officer of any other corporation, and the respective heirs, executors, and administrators of each of them, shall be indemnified by the Cooperative against all costs, expenses, judgments, decrees, fines, penalties and liabilities, including attorneys' fees, actually and necessarily incurred by or imposed upon them in connection with or resulting from any action, suit or proceeding, civil or criminal, in which they are or may be made a party by reason of being or having been such Board member, trustee, director or officer, or by reason of any action alleged to have been taken or omitted by them as such Board member, trustee, director or officer, whether or not they are Board members, trustees, directors or officers at the time of incurring such costs, expenses, judgments, decrees, fines, penalties and liabilities; provided, however, that the indemnification provided for in this Section 1 shall be made only if such Board member, trustee, director or officer:

- a. is adjudicated or determined not to have

been negligent or guilty of misconduct in the performance of their duties to the Cooperative or the corporation of which they are or were trustees, directors or officers;

- b. is determined to have acted in good faith in what they reasonably believed to be the best interest of such corporation, and
- c. in any matter the subject of a criminal action, suit or proceeding, is determined to have had no reasonable cause to believe that their conduct was unlawful.

The determination as to (b) and (c), and in the absence of an adjudication as to (a) by a court of competent jurisdiction, the determination as to (a), shall be made by the Board acting at a meeting at which a quorum is present consisting of the Board members who are not parties to or threatened with any such action, suit, or proceeding as that giving rise to the matter. Any Board member who is a party to or threatened with any such action, suit, or proceeding shall not be qualified to vote and, if for this reason a quorum of the Board cannot be obtained to vote on such indemnification, no indemnification shall be made unless a determination is made as to (a), (b) and (c) above by the Executive Committee of Ohio Rural Electric Cooperatives, Inc. acting at a meeting thereof at which a quorum consisting of the members of said committee who are not trustees, directors, or officers of the indemnifying corporation are present. Any member of said Executive Committee who is a trustee, director or officer of the indemnifying corporation shall not be qualified to vote and, if for this reason a quorum of members of the Executive Committee of said Executive Committee cannot be obtained to vote on such indemnification of the matter shall be submitted to an arbitrator appointed pursuant to the rules of the American Arbitration Association for determination, and said arbitration shall be conducted in accordance with the rules of said Association. Such indemnification shall be made with respect to adjudication other than on the merits and shall extend to settlements and compromises.

#### **SECTION 2.**

The right of indemnification provided for by Section 1 of this Article XIII shall not be exclusive of any other rights to which a Board member, trustee, director or officer may be entitled under any law, agreement, vote of shareholders, vote of members, any insurance purchased by the Cooperative, or otherwise.

In order to induce patronage and to assure that the corporation will operate on a non-profit basis the Corporation is obligated to account on a patronage basis to all its patrons, members and non-members alike, for all amounts received and receivable from the furnishing of electric energy in excess of operating costs and expenses properly chargeable against the furnishing of electric energy. All such amounts in excess of operating costs and expenses at the moment of receipt by the Corporation are received with the understanding that they are furnished by the patrons, members and non-members alike, as capital. The Corporation is obligated to pay by credits to a capital account for each patron all such amounts in excess of operating costs and expenses. The books and records of the Corporation shall be set up and kept in such manner that at the end of each calendar year the amount of capital, if any, so furnished by each patron is clearly reflected and credited in an appropriate record to the capital account of each patron, and the Corporation shall within a reasonable time after the close of the calendar year notify each patron of the amount of capital so credited to their account.
