# Help us meet your energy needs!

Butler Rural Electric Cooperative is working with Buckeye Power, our power supplier, to conduct a survey to learn how residential members use electricity and household appliances to help plan for future energy needs.

Surveys were sent by email in August and by mail in September. Only a fraction of co-op members will receive the survey. **This makes your response very important to us.** The survey should take about 10 minutes to complete and all answers are confidential. No results will identify you or any individual members.

Thank you for helping us plan for your future energy and conservation needs!
